I am a Passionate Full-Stack Web Developer!
open-minded and focused on never-ending professional self-improvement Very Motivated.
Always looking forward to my next challenge.

PROFESSIONAL KNOWLEDGE

Large scale Project (java server, Angular client) that reveals RESTful API:
Build a Coupon management system that allows Companies to Produce Coupons as part of their campaigns.

The project consisted of three stages:

Build the system core with JDBC, then refactor the system server using spring boot & JPA Hibernate technologies, and the third stage was Communication between the server and Angular by using RESTful API, and Exposing the website to the Internet.
